PICKERING **Notice of Electronic Public Open House**

Due to COVID-19 and the Premier's Emergency Order to prohibit public events and limit gatherings, the City Development Department is holding an Electronic Public Open House. The electronic public open house will provide interested parties the ability to learn about the recommendations that are being considered for managing **infill and replacement housing in established neighbourhoods**, and to provide comments. This Electronic Public Open House will be held on:

Tuesday, August 11, 2020 at 7:00 pm to 9:00 pm

Residents can participate electronically by audio, or watch the meeting live streamed via the City of Pickering's YouTube channel
<https://www.youtube.com/user/SustainablePickering>

Should you wish to address City staff and/or the consultant during the electronic meeting, please register with Margaret Kish, mkish@pickering.ca, by 12:00 noon on the business day prior to the meeting. Please ensure that you provide the telephone number you wish to be called at so that you can be connected via audio when it is your turn to speak. A recording of the meeting will also be available on the City's website following the meeting.

The City of Pickering is undertaking **the Infill and Replacement Housing in Established Neighbourhoods Study** (the Study) to determine how to manage infill and replacement housing construction in established neighbourhoods within the South Pickering Urban Area.

There will be a pre-recorded presentation by the project team at 7:00 pm followed by an opportunity to ask questions and discuss the Draft Planning Recommendations Report and Draft Urban Design Guidelines (Phase 3 of the Study). You are encouraged to review the Draft Planning Recommendations Report on the City's website at pickering.ca/InfillStudy prior to the meeting.

The Draft Planning Recommendations Report provides the analysis of the Preferred Strategy proposed in Phase 2 of the Study and proposes detailed recommendations for the City to address compatibility of new infill and replacement housing in established residential neighbourhoods.

Your comments will inform the staff report to the Planning & Development Committee meeting on September 14, 2020. Separate notification will be provided in advance of this meeting.

Your comments and/or questions regarding the Draft Planning Recommendations Report can be forwarded to:

Margaret Kish, MCIP, RPP
Principal Planner, Policy
City Development Department
