

# Notice of Study Completion

Krosno Creek Flood Reduction Study  
Class Environmental Assessment

Engineering & Public Works Department

February 18, 2015

The City of Pickering has completed the Krosno Creek Flood Reduction Study to determine the best means of reducing the risk of flooding along Krosno Creek. The Study Area is shown in the Key Map below.

Study Area

The recommended solution is to replace the existing culverts at Alyssum Street, Reytan Boulevard and Morden Lane, located in the Study Area noted above, with larger concrete box culverts. The Study also includes recommendations for stormwater management for future development in the study area, regular maintenance of the Krosno Creek channel, and future upgrades to other culverts along Krosno Creek.

The study has been conducted in accordance with the Schedule B process as outlined in the Municipal Engineers Association's Municipal Class Environmental Assessment (October 2000, as amended in 2007 and 2011). A Project File Report (PFR) has been prepared, which documents the development and evaluation of alternative solutions and the preliminary design of the preferred solution. The PFR is available for review on the City's website and at the following locations:

Pickering City Hall  
Clerk's Department  
One The Esplanade  
Pickering, ON L1V 6K7

Pickering Public Library  
Main Branch  
One The Esplanade  
Pickering, ON L1V 6K7

Interested persons may provide written comments to the City of Pickering within 30 calendar days from the date of this notice. Comments should be directed to Marilee Gadzovski, City of Pickering (see contact information at the bottom of this notice).

If concerns regarding the project cannot be resolved in discussion with the City of Pickering, a person or party may request the Minister of the Environment to issue an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II Order), which addresses individual environmental assessments. Requests must be received by the Minister at the address below within 30 calendar days of this Notice, with a copy sent to the City's Project Manager. If there are no requests by this date, the City may proceed with design and construction of the project as per the PFR.

The Honourable Glen R. Murray  
Minister of the Environment and  
Climate Change  
5775 Yong Street, 8<sup>th</sup> Floor  
North York, ON M2M 4J1
