

This series of seven banners celebrates the cultural richness and natural beauty of Pickering, capturing the events, landscapes, and features that make the city unique.

The designs highlight community traditions such as farmers' markets and summer concerts, alongside the parks, green spaces, and seasonal blossoms that define Pickering's natural charm. These are contrasted with another banner depicting the urban streetscape, reflecting the harmonious coexistence between nature and the built environment.

Other banners celebrate the spirit of local enterprise, featuring small businesses—especially the restaurants and cafés that line the waterfront and enliven the town's streets. One banner also honours Pickering's progressive policies, including its commitment to clean energy and the development of sustainable energy facilities.
