

Service Announcement **Notice of** **Extension of Roof Top HVAC Installation**

George Ashe Library & Community Centre

Purpose: Roof Top HVAC Installation

Duration: Monday, July 7 to Tuesday, August 19, 2025

Heating, ventilating and air conditioning (HVAC) units are being replaced at George Ashe Library & Community Centre. Due to the work, temporary cooling will be provided to the Paris and Franklin Rooms on the community centre side of the building. All City and Library programs and services will continue as scheduled with exception to the Youth Room, which will be closed for the duration of the project. The Library will not be affected by this work. Facility rentals will also continue as planned during the construction period.

Portions of the parking lot (highlighted in red) may be temporarily closed at different stages of the project to accommodate construction storage. Alternative street parking is available on Rosebank Road, north of Old Forest Road.

Installation is currently expected to be complete by August 19, subject to suitable weather and equipment production and delivery dates.

For information on recreation programming please contact:
