

Anticipated Start Date: June 22, 2026

Anticipated Completion Date: August 21, 2026

The City of Pickering's contractor, Avion Construction Group Inc. (Quotation No. Q2026-4 Finch Avenue Sidewalk Construction), will be undertaking construction of a new 1.8m wide sidewalk on both sides of Altona Road, north of Finch Avenue, to enhance accessibility and improve pedestrian safety at the intersection.

The scope of work includes:

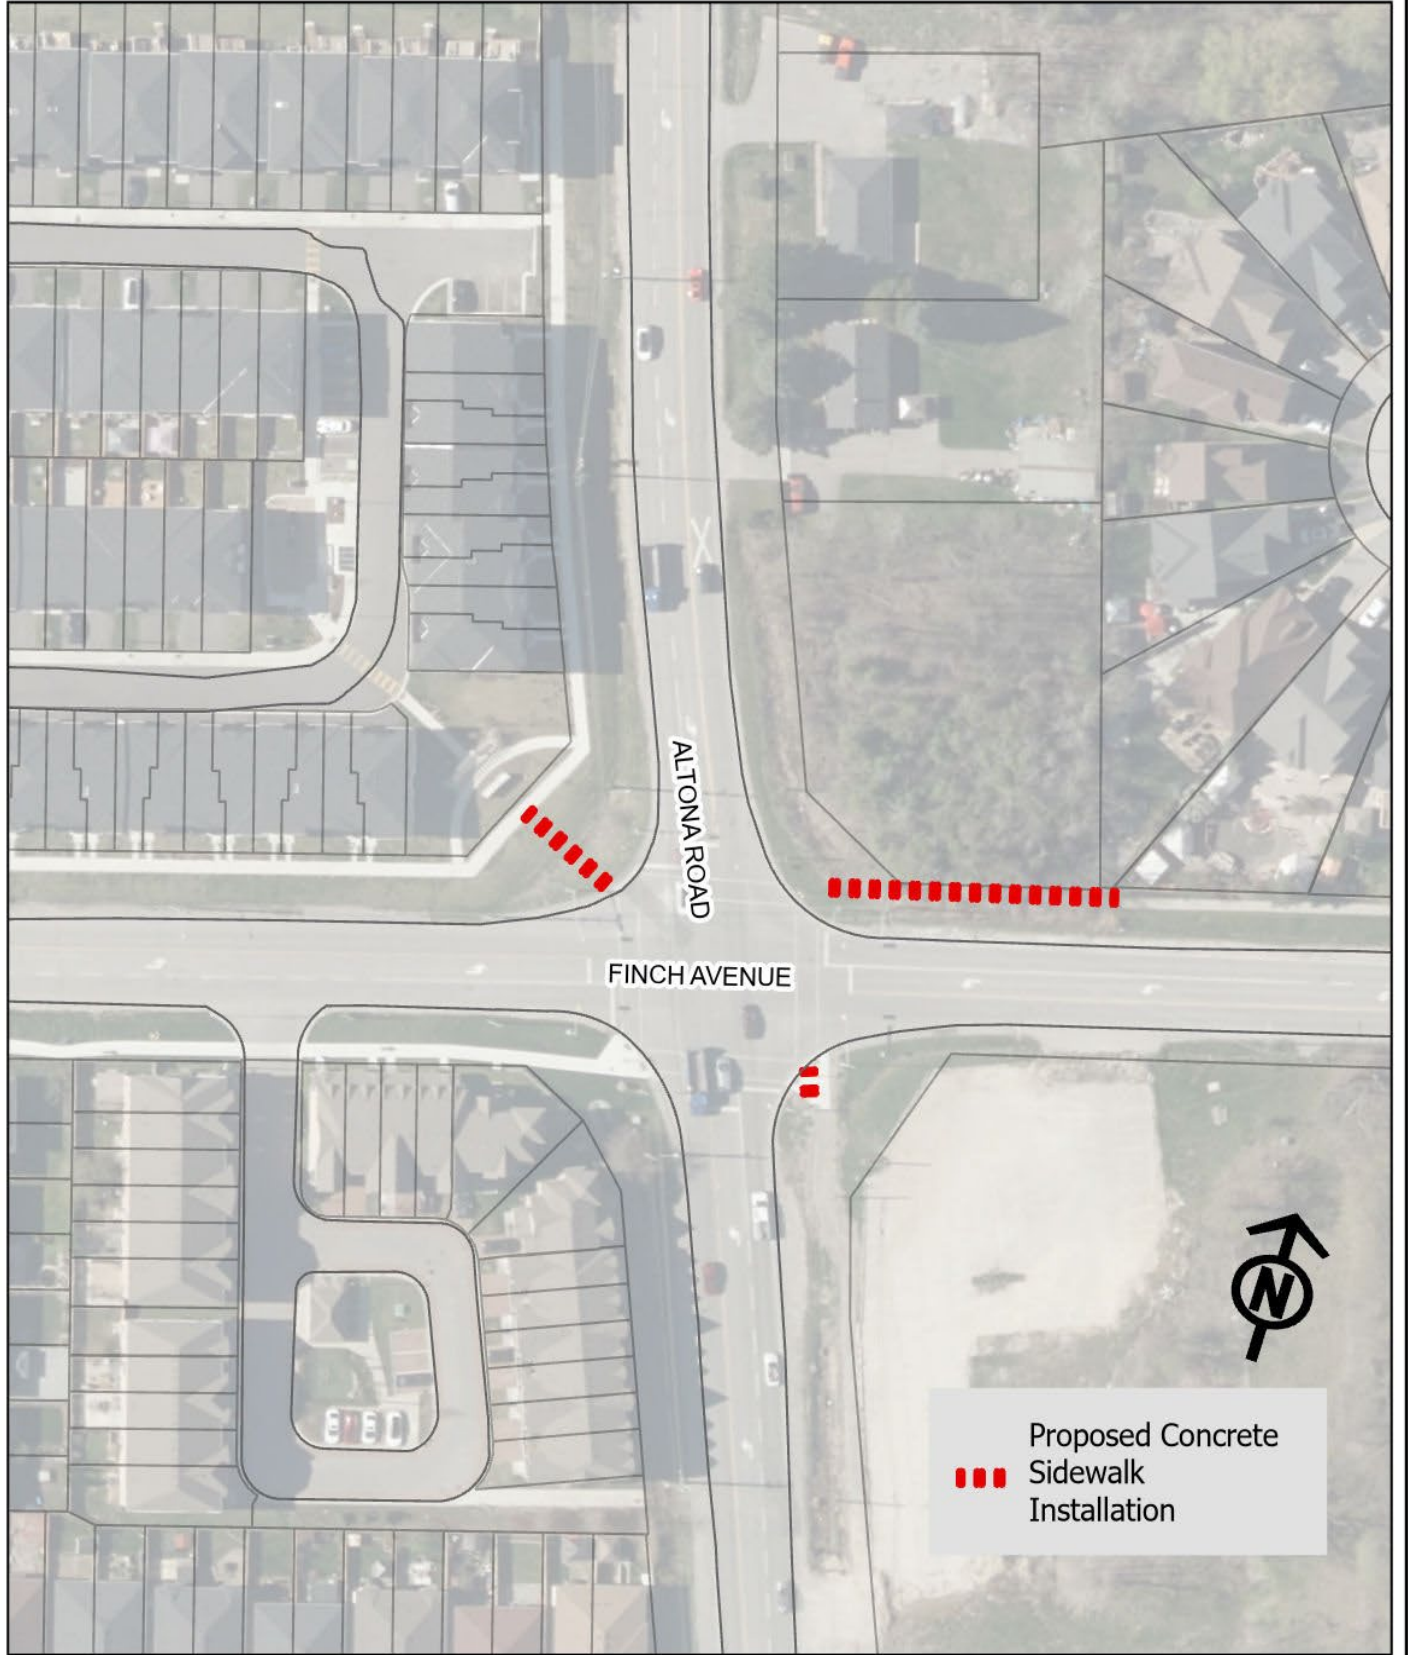

- placement of Granular "A" material as the structural base
- installation of corrugated steel pipe culverts
- construction of a 1.8 m concrete sidewalk
- installation of precast concrete catch basins
- installation of tactile walking surface indicators
- relocation of accessible pedestrian signals
- restoration of existing concrete curbs and sidewalks
- restoration of all disturbed areas
- line painting, as required

The road will remain open throughout construction; however, sections of sidewalk at the intersection will be closed periodically to complete the work. Residents may experience temporary disruptions including noise and dust, at times during construction. Access for emergency services will be maintained at all times.

We look forward to working with you to complete this project in a professional and timely manner. Thank you in advance for your cooperation and patience. If you require any further information regarding this project, please contact:
